Description

Bliss Honey je mala, porodična firma nastala iz poljoprivrednog gazdinstva koje se bavi pčelarstvom. Na jednom od porodičnih putovanja otkrili smo krem med koji se dobija procesom kontrolisane kristalizacije pri čemu nastaje med koji sadrži veliki broj malih kristala koji sprečavaju stvaranje krupnijih. Ideja nam je bila da ponudimo nešto inovativno i zdravo.

“Obogatili” smo naš med liofilizovanim voćem, kafom, pistaćima i morskom soli. Osim kremaste teksture u naše proizvode smo uneli inovativnost i kreativnost pri izboru kombinacija. Krem med sa crnim tartufom, kao i krem med sa kardamonom i cejlonskim cimetom predstavljaju pravi užitek za hedoniste.

Bliss Honey je kompanija osnovana u aprilu ove godine i već distribuiše svoje proizvode trgovinskim lancima u Srbiji, kao i prodavnicama lokalnih delikatesa. Posedujemo pogon po najvišim standardima u prehrambenoj industriji. Naši kapaciteti proizvodnje mogu da zadovolje i najzahtevnija tržišta premium proizvoda.

Bliss Honey is a small family run business originated from beekeeping farm. During one of our family trips we discovered creamed honey that has been processed to control crystallization. It contains a large number of small crystals, which prevent the formation of larger ones. Our idea was to offer something innovative and healthy.

We enriched our honey with freeze-dried fruit, coffee, pistachios and sea salt. Besides the creamy texture, we have introduced innovative and creative combinations into our products. Creamed honey with black truffle as well as creamed honey with cardamom and Ceylon cinnamon are a real treat for hedonists.

Bliss Honey is a company established in April this year and is already distributing its products in retail chains in Serbia as well as local deli stores. We have the plant to the highest standards in the food industry. Our production capacities can satisfy even the most demanding markets of premium products.
