Bilateral Meetings

- Friday 09:00-18:00

Description

Established in 2013, Cold Pressok has become the leading brand, most trusted in health food supply in Serbia. Our broad range of products consists of cold-pressed fruit and vegetables juices and smoothies, probiotic shots, a variety of refreshing cold pressed nut milks including almond, hazelnut and cashew milk as well as various vegan nut butters like almond, almond-coconut, chocolate-hazelnut or chocolate-peanut. The latest addition is super food protein granola, made with quinoa, chia, millet, buckwheat, almond butter. All our products are gluten, dairy and lactose free, have NO additives, NO preservatives, NO added sugar, NO processed ingredients, they are NOT pasteurized. Cold Pressok exclusively uses HPP- High pressure processing (HPP) instead of heat pasteurization, to preserve freshness, deliciousness and high nutritional value of raw fruits and veggies. Our usage of both, modern technology and the highest quality ingredients, results in strong integrity, functionality and transparency of our products. We do not say it is easy, but we have proved it is possible.
