Description

AURORA je osnovana 2018 godine sa ciljem da trzistu ponudi nesto novo , prvenstveno zdravo i bez ijednog aditiva , konzervansa i GMO . Posto je i naucno dokazano da je hurma / datula najzdravije voce na svijetu pristupili smo istrazivanju mnogobrojnih sorti , a ima ih jako puno , te se odlucili za Libijsku sortu Deglet Nour , "Kraljicu svih datula" . Uz sva tehnicka dostignuca , izradili smo premium marmelade visoke nutritivne vrijednosti , te sacuvali sve dobrobiti koje nam ovo voce nudi . Naravno nismo zaobisli ni nase podneblje , kao ni nase voce (jabuku i suhu sljivu) koje se na fantastican nacin uklopilo sa datulom . Podstrek za daljnja istrazivanja su nasi vjerni kupci koji prepoznaju kvalitet i ostaju mu vjerni.

AURORA was founded in 2018, with the aim to offer something new, primarily healthy and without any additives, preservatives and GMO. Since it has also been scientifically proven that the dates are the healthiest fruit in the world we have approached the exploration of numerous types of dates, there are many, and decided for the Libyan type of dates called Deglet Nour, "Queen of all dates". In addition to all the technical achievements, we have created premium marmalade of high nutritional value and saved all the benefits that this fruit offers us. Of course we did not bypass our area as well as our fruits (apple and dry plum) that were in a fantastic way blended with the dates. The incentives for further research are our loyal customers who recognize quality and remain faithful to it.
