- Friday 09:00-18:00

Description

Go G

In summer of 2015, two friends from Belgrade had a dream of growing beautiful, homegrown fruit and turning them into delicious, freshly squeezed produce, without any added sugars, colorings, or preservatives.

At Go G juice, we have made it our mission to embrace what we believe is the world's healthiest fruit, and what is now our focal ingredient: goji berries. We produce our products within the time frame when the fruits are in season from our own fields, as it is of utmost importance to offer juice made from fruits that are picked at the peak of ripeness, to ensure first-class quality within all of our juices. It is through this method that we lock in the flavor of our granny-smith apples, red heaven peaches, and vilamet raspberries at their tastiest state, only to generate pure goodness.

Within the first year of our operations, we generated a staggering amount of 10,000 bottles by utilizing only 300-ml. packaging. As we expanded, our production capacity augmented and we are now able to process 1.5 tons of fresh fruit per day and bottle between 150-180ml per hour. Go G Juices are currently available in both 300ml and 750ml glass bottles. With the juices sold in over 200 retail stores from Mercator S, Aroma, DIS, Univerexport and dm-drogerie retail chains. With the addition, that the juices are exported to Germany and Australia.

Organization Type

Private company

Organization Size

1-10

Founding Year

2015
